# NORTHERN GREAT BARRIER REEF

Escape into the wilderness of the northern Great Barrier Reef on your own luxury yacht. Snorkel in opal clear reefs amongst shoals of dazzling fish and corals...catch fresh fish for dinner...stroll barefoot along untouched sandy beaches...discover aboriginal cave paintings...or for an adventure fly by helicopter to a secluded rainforest waterfall on the isolated Cape York Peninsula. The northern Great Barrier Reef...extending some 600 miles from Papua New Guinea to Cairns...rarely visited ribbons of reef lying on the brink of the Coral Sea trench.

*No restaurants. No marinas. And sorry, not much in the way of shopping either.*

You've never chartered in a place like this before. Most likely neither has anyone you know. Much of the reef you'll be exploring remains uncharted...even Captain Cook came to grief on its hidden coral crags...But with our experienced local captains every day you'll be discovering a new anchorage...You'll be able to explore above and below water with a knowledgeable and capable crew to share their love of the reef with you. We can even arrange for a qualified marine biologist to join your expedition. Or of course just relax in total peace...And luxury is one necessity you won't have to give up to join this modern day adventure.

The region is sparsely inhabited and is known as one of the safest cruising grounds in the world. At Great Barrier Reef Expeditions, we have the ideal yacht to make your adventure base for a precious few days or weeks.
